Projects

Co-Parenting Coordinator *React.js, Node.js, Express.js, MongoDB*
GitHub: github.com/pauldhrupad/co-parenting-coordinator

- Developed and deployed a full-stack coordination platform for custody scheduling, shared expense management, family communication, and timestamped history exports.
- Implemented JWT-based authentication, bcrypt password hashing, family-scoped authorization, invitation-based onboarding, custody conflict detection, and expense approval, dispute, and settlement workflows.
- Built append-only messages and audit records with MongoDB transactions, receipt uploads through Cloudinary, email notifications, PDF/CSV exports, and automated unit and integration tests.

Farm Market *HTML5, CSS3, JavaScript*
GitHub: github.com/pauldhrupad/Farm_Market

- Developed a multi-page farm-produce marketplace interface with Home, Login, Launch, Contact, and user interaction pages.
- Implemented interactive frontend features including smooth scrolling, 3D tilt and glare effects, typewriter animations, and dynamic cursor interactions using JavaScript.
